ul. "Okolovrasten pat" 456B  
Inter Logistic Park

Step into the future of hunting with the ATN X-Celsior Scope, the ultimate tool for the modern hunter who demands precision, clarity, and reliability. Engineered with an Ultra Sensitive Night Time Sensor boasting a crystal-clear 2688x1944 pixel resolution, this scope ensures unmatched performance in low-light and pitch-black conditions, allowing you to spot your target even in the darkest environments.

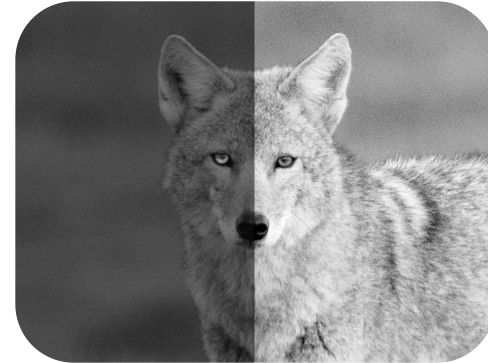

The X-Celsior's 1280 High Definition Display brings every detail into sharp focus, while the Stadiametric Rangefinder and ATN Predator Reticle deliver pinpoint accuracy, helping you make every shot count. Designed with hunters in mind, this scope features a powerful long-range IR illuminator for enhanced visibility and is crafted to be lightweight and durable for rugged field use.

With a long-lasting internal lithium-ion battery, the X-Celsior Scope keeps you on the hunt for over 10 hours, so you can stay in the field longer without interruptions. Whether you're stalking prey at dusk or pursuing game through the night, the X-Celsior transforms every hunt into a precise, thrilling adventure.

**The ATN X-Celsior provides the ultimate in nighttime hunting optics that delivers accuracy and reliability in any condition.**

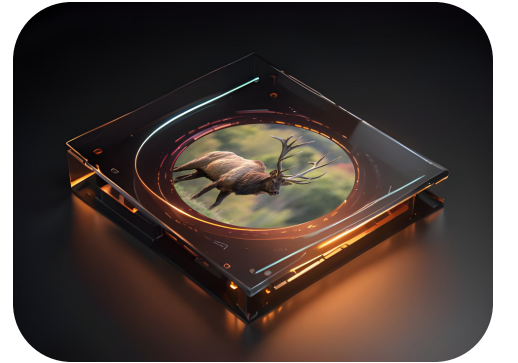

## ULTRA SENSITIVE NIGHT TIME SENSOR

Unlock the night with the Ultra Sensitive Night Time Sensor, delivering crystal-clear images even in the darkest environments, so you never miss a moment in low light.

## 1280 HIGH DEFINITION DISPLAY

See every detail with the 1280 High Definition Display, delivering sharp and vivid visuals that bring your target into perfect focus, day or night.

## VIDEO RECORD

Capture every moment in stunning detail with built-in video recording. Easily save and share your adventures, ensuring you never miss a shot or memory.

## DAY/NIGHT MODE

Hunt confidently 24/7 with easy day-to-night transitions, providing crystal-clear visuals no matter the time or lighting.

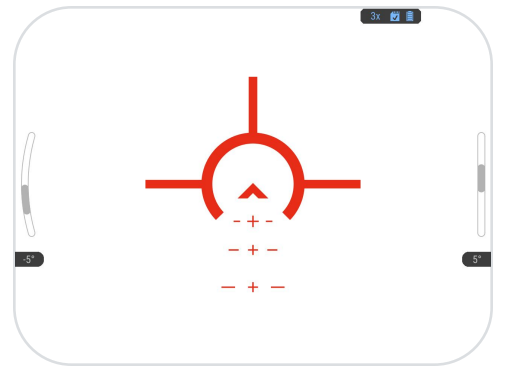

## STADIAMETRIC RANGEFINDER

Achieve precise distance measurements with the Stadiametric Rangefinder, designed to give you accurate range data, making long-distance shots more reliable than ever.

## ATN PREDATOR RETICLE

Dominate your hunt with the ATN Predator Reticle, a specialized reticle that combines simplicity with advanced targeting capabilities for quick, precise shots.

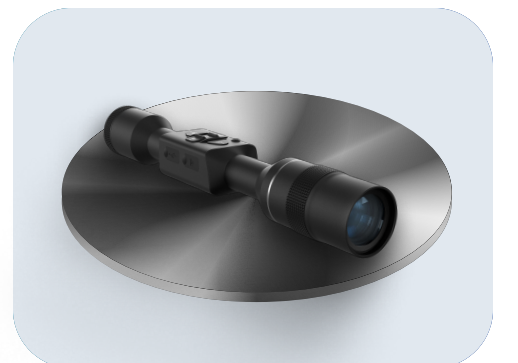

## LONG-RANGE HIGH-POWER ILLUMINATOR (INCLUDED)

Illuminate your surroundings with the included long-range high-power illuminator, providing enhanced visibility in complete darkness, so you never miss a moment.

## LIGHTWEIGHT

Stay agile and comfortable in the field with the X-Celsior's lightweight design, ensuring ease of movement without compromising on durability or performance.

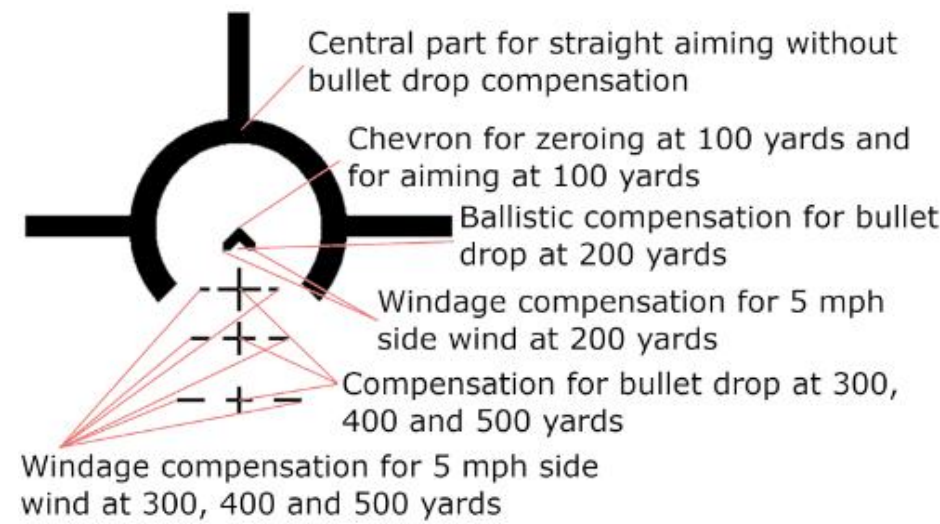

# ATN PREDATOR RETICLE INFORMATION

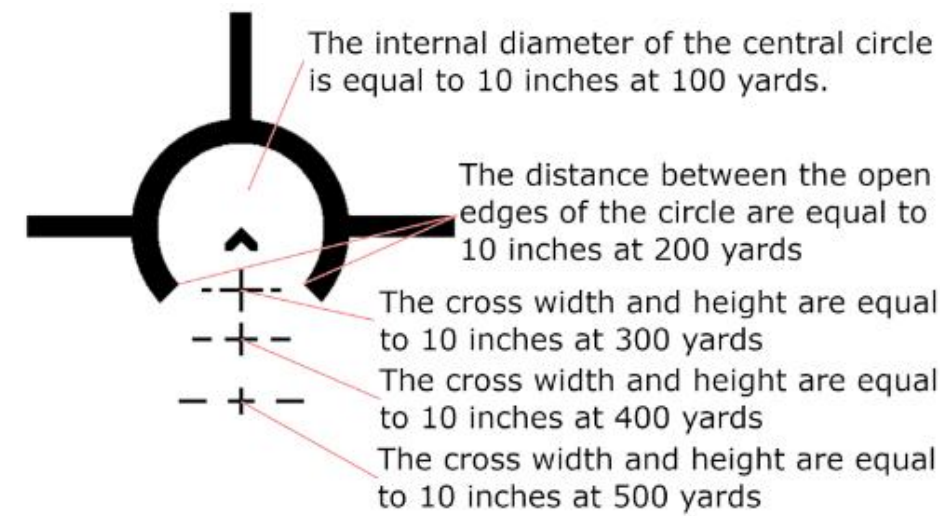

The ATN Predator reticle was specifically created for predator hunting. It is designed to match the ballistic profile and drop for most 55 gr. bullets in .223 Remington and 165 gr. bullets in .308 Winchester

It can be used to quickly aim with the center chevron at 100 yards and to shoot at ranges up to 500 yards with ballistic compensation through 100 yards. The reticle also accommodates wind compensation for 5 mph side wind. The central crosses of the reticle are used for rangefinding and represent the angular dimension corresponding to 10 inches at the distance for compensation.

Here is an explanation of the reticle and its components:

The range finding capabilities of the reticle are designed for coyote hunting and the size of the elements correspond to coyote body height at the chest area. Here is an explanation of the stadiametric rangefinding capabilities of the reticle:

Example:

The coyote chest has about a 10 inch vertical size and it approximately fits the cross that corresponds to 300 yards. In order to compensate for the drop, the shooter should aim with the same cross that fits the size of the coyote chest - namely the center of the first cross from the top to the bottom.

## INCLUDED IN THE BOX

Scope

Infrared Illuminator & Battery

Special mount for the IR

Scope Cover

IR Battery Charger

USB-C cable

Eyecup

Lens Cap

Lens Tissue

Manual

Warranty Card

\* Components may be subject to change without notice.

## OPTIONAL ACCESSORIES

### LOW PROFILE QUICK DETACH HEAVY DUTY MOUNT

Optimize your hunting setup with the Low Profile Quick Detach Heavy Duty Mount, allowing fast scope changes between firearms while keeping your optics securely in place.
